

CUT PROTECTION SLEEVES

DUPONT
Kevlar

Radians Sleeves with DuPont™ Kevlar®

Cut- and heat-resistant technology protect arms and wrists from cuts, slashes, punctures, and offer light heat resistance too.

Kevlar® is a synthetic, lightweight, heat-resistant fiber that is incredibly strong, delivering a high tensile strength-to-weight ratio. Kevlar® is also inherently flame resistant—its fibers won't melt, drip, or support combustion.

In addition to the excellent cut- and heat-protection benefits of Radians Sleeves, they're lightweight and comfortable too, making them an ideal choice for long wear when both cut and thermal hazards are present at the jobsite. Available in 1-ply and 2-ply.

- **A2 OR A3 CUT PROTECTION**
- **14" OR 18" LENGTH**
