

BEAD BREAKERS

IMPACT BEAD BREAKERS

Bead breaker loosens beads with bead-breaking foot and ram bar, but never cuts the bead of the tire. The wedge foot is forced between the bead and rim flange. Breaker is designed for shop or road use. No other bead breaking tools are necessary. Provides greater accuracy than other conventional bead breakers.

T26B has exclusive spring action design to reduce user fatigue associated with slide hammer kickback.

Model No.	Item No.	Description	Length	Length Ext.	Weight
A	T24B	Economy - 1" Dia. Ram	46" (117 cm)	72" (183 cm)	13.5 lbs (6.1 kg)
