# Professional Memory Saver

## 3177A

### An effective solution for saving vehicle data

Saves the vehicles on board diagnostic memory and other on-board memory components such as anti-theft radios, digital clocks, radio presets, seats, mirrors, comfort settings, etc. when the vehicles battery is removed or disconnected.

**Saves the on-board computer memory while the vehicle battery is disconnected**

### Comes complete with:

- Memory saver power station with rechargeable high capacity 12V battery
- 12V AC/DC charger
- OBD II connector
- Cigarette/power plug and cord

### Professional Memory Saver Benefits and Features:

- OBD II cable for fast connection to the vehicle
- Cigarette lighter adapter for use with vehicles that do not have an OBD II connector
- LED lights confirm circuit between the cigarette lighter/power outlet and the vehicle's battery with the ignition on or off
- State of charge indicator identifies when the memory saver needs to be plugged in for recharge
- Resettable fuse protects against excessive current draw through either the OBD II connector or the vehicles cigarette lighter
- High capacity, rechargeable sealed lead acid battery for extended service between charges
- Power on/off switch
- One, complete, durable compact unit
