EU RoHS 3/REACH
Information request
Esco Company Ltd.
kimura-m@esco-net.com

To Whom It May Concern,

Ullman Devices manufactures and assembles a variety of tools and accessories for distribution. These tools and accessories are supplied to many customers.

Restriction of Hazardous Substances (RoHS) compliance is utilized to improve the protection of human health and the environment from the risks posed by certain chemicals. These chemicals are considered to be Substances of Very High Concern (SVHC) for the European Union (EU).

RoHS 3 (EU Directive 2015/863) added Category 11 (catch-all) products and adds four new restricted substances - all phthalates. The four phthalates are mainly used as insulation plasticizers, and are on the list of Substances of Very High Concern (SVHC).

Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) for the European Chemicals Agency (ECHA), compliance is utilized to improve the protection of human health and the environment from the risks posed by certain chemicals. These chemicals are considered to be SVHCs for the European Union.

The parts listed below are recognized under this information request:

- **Product #HTK-2LT Telescopic Pocket Mirror**

To show that the Ullman Devices manufacturing businesses comply with the Restriction of Hazardous Substances (RoHS) and Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) the following applies:

- Ullman Devices Corporation does not manufacturer or otherwise use chemicals that are listed in the EU RoHS 3 list of materials.

Ullman Devices Corporation continues to manufacture quality products while adhering to environmental compliance through RoHS/REACH.
